

## Proposal of Holding An Online Exchange Meeting among SFPE Chapters in Asia-Oceania region

### **The Purpose of the Proposal**

Roughly ten years ago, SFPE Asia-Oceania Chapters established an exchange organization, so called SFPE Asia-Oceania Chapters Coordinating Group (AOCCG), and have been holding exchange activities such as meetings, seminars, site tours and the like. However, in these several years, it has not been so active as in the past. This is mostly due to the Covid-19 Pandemic, but on the other hand, we got a new communication tool called as the online conferencing.

Considering this situation, as you remember, Japan chapter conducted the questionnaire survey among SFPE Asia-Oceania Chapters last year to know the current situation in each country and chapter. One of good ideas obtained from this survey is to have an online meeting among SFPE Asia-Oceania Chapters instead of the former style exchange meeting in person. And, we believe the most of chapters agree with this idea.

Therefore, we Japan Chapter proposes to have an online exchange meeting among SFPE Asia-Oceania Chapters. We hope you all agree with this idea and join the meeting. The tentative dates and agenda for a proposed meeting are as follows.

### **The Tentative Dates and Agenda for the Exchange Meeting**

- Date                      Some appropriate day in January 2022
- Time                      From 04:00 UTC (13:00JST    9:30IST    23:00EST) for 2 hours
- Topics
  1. Current situation of fire protection engineering in each country such as administrative and engineering issues of fire protection design especially performance-based design along with the profession of practitioners and serious fire cases that recently occurred.
  2. Current Situation of each chapter and other free topics
  3. Communication tool                      Zoom meeting (set by Japan Chapter)
